

BHAWABHUTI MAHAVIDYALAYA, AMGAON, DIST. GONDIA**BRIDGE COURSE****Course Coordinator: Dr. B. A. Shingade**

Academic Year	Plan	Execution Report	Analysis	Action Taken
2025-26	Notice regarding the activity circulated among faculty on 10/09/2025. The nature of the activity was discussed with teachers in staff meeting in the previous sessions. It was expected that student should benefit academically. Students admitted in first year program are expected to understand the aspects of the subject. Hence a recap is necessary so as to bridge the gap between what is to be known and what is to be learnt.	25 teachers conducted 120 classes in this course. Average no of classes per teacher: 06. Average attendance of students has been to the tune of 50 to 60 % because admissions to first year were still on. Total number of beneficiaries has been 700 ; the no includes total attendance, averaged over 5 days, of all subjects.	Students benefitted from language classes. This was due to their poor language skills. Almost all classes revealed the fact that majority of students were having poor understanding of basic subject principles. Hence, organizing Bridge Courses in every subject was found to be a fruitful activity. Every teacher conducted these classes based on a given modular curriculum.	It has been decided to strengthen bridge courses with the help of ICT enabled methods during 2025-26. The institution is on the verge of institutionalizing the activity of bridge courses.
2024-25	Notice regarding the activity circulated among faculty on 25/10/2024. The nature of the activity was discussed with teachers in staff meeting in the previous sessions. It was expected that student should benefit academically. Students admitted in first year program are expected to understand the aspects of the subject. Hence a recap is necessary so as to bridge the gap between what is to be known and what is to be learnt.	25 teachers conducted 120 classes in this course. Average no of classes per teacher: 06. Average attendance of students has been to the tune of 50 to 60 % because admissions to first year were still on. Total number of beneficiaries has been 800 ; the no includes total attendance, averaged over 5 days, of all subjects.	Students benefitted from language classes. This was due to their poor language skills. Almost all classes revealed the fact that majority of students were having poor understanding of basic subject principles. Hence, organizing Bridge Courses in every subject was found to be a fruitful activity. Every teacher conducted these classes based on a given modular curriculum.	It has been decided to strengthen bridge courses with the help of ICT enabled methods during 2024-25. The institution is on the verge of institutionalizing the activity of bridge courses.

BRIDGE COURSE

Academic Year	Plan	Execution Report	Analysis	Action Taken
2023-24	Notice regarding the activity circulated among faculty on 21/09/2022. The nature of the activity was discussed with teachers in staff meeting in the previous sessions. It was expected that student should benefit academically. Students admitted in first year program are expected to understand the aspects of the subject. Hence a recap is necessary so as to bridge the gap between what is to be known and what is to be learnt.	25 teachers conducted 122 classes in this course. Average no of classes per teacher: 06. Average attendance of students has been to the tune of 50 to 60 % because admissions to first year were still on. Total number of beneficiaries has been 1222; the no includes total attendance, averaged over 5 days, of all subjects.	Students benefitted from language classes. This was due to their poor language skills. Almost all classes revealed the fact that majority of students were having poor understanding of basic subject principles.
